1. INTRODUCTION

PATOIPA is an acronym for **Passion To Illuminate Pathways**. It was founded in 2013.

Our German organization likes supporting vulnerable kids in Kenya. Together with our partners in Kenya, we have been supporting sustainable projects, to level for Kenyans an own pathway on which they can move self-determinedly. We want to increase the light of oneness appreciating ethnic and religious diversity while focusing on the core of our united hearts. So far, we support preschools, primary schools, orphanages, mother groups called Mothers of Light, a men group, called Sober Man Africa, a children center in the Soweto slum in Nairobi and the Earthly Family Institute (EFI) which should prepare our children after school for the entry into working life.

2. VISION AND MISSION

Vision: An empowered and connected society with happy children.

Mission: Patoipa e.V. is an organization serving children through community focused initiatives.

3. OUR PROGRAMMES

We run programs across Kenya. We are currently supporting three preschools, two primary schools, four orphanages, three mother groups called Mothers of Light, one men group Soberman Foundation and one children center in a slum in Nairobi.

Project Name	Location in Kenya	Direct Beneficiaries
Green Garden Academy	Ukunda	Children
Green Butterfly Academy	Ugunja	Children
Mothers of light groups	Ukunda, Ugunja, Nairobi	Women
Light Homes	Orore, Ukunda, Nairobi, Ugunja	Children
Sober Man Africa	Naivasha	Men
Children Center and school	Nairobi	Children
Earthly Family Institute	Ukunda, later all our areas	Youth

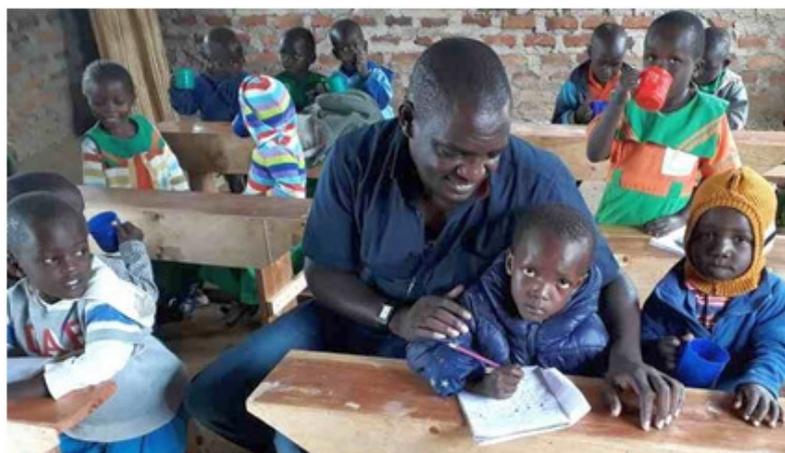

3.1 Green Garden Academy (GGA)

The Green Garden Academy is one of our primary schools located in Ukunda, near Mombasa. GGA has a population of more than 300 children majority of who come from a humble background. Before the opening of school in 2016, most of these children used to eat from garbage in the neighborhood; GGA has not only offered education to the vulnerable but also proper nutrition through our feeding program that offers two meals a day. One of the greatest keys to success for our GGA has been the dedication and commitment of the school director Mr. Cleophas Dindi

3.2 Green Butterfly Academy (GBA) in Ugunja

The Green Butterfly Academy (preschool/Primary) in Western Kenya are the sister project of the Green Garden Academy in Ukunda Kenya. The GBA opened 2017. The schools are bright rays for currently about 100 kids, the poorest of the poor ones in this region. We started with the little ones and want to be with them till they are strong enough to walk their happy ways alone. We have started already a vocational training center that will give hope to the grown kids later who cannot join university.

3.3 Children Center and Gold Bridge Center

At the Children Centre we endeavor to offer nutritional support to the vulnerable families in the Soweto Slum in Nairobi. We give currently breakfast and afternoon fruit/snack to 130 children. The older children have been attending a school nearby whilst the young ones can join our preschool or one plays together.

3.4 Shelters (Kids homes)

Patoipa takes care of orphans in rather small family homes with two shelters each, one for boys and one for girls. We created Light Homes in Orore, in Ugunja, in Nairobi, and our home in Ukunda are going to open the doors end of 2019.

3.5 Women Empowerment Groups

We have four women economic empowerment groups, called Mothers of Light, one in Ukunda, one in Nairobi, one in Ugunja and one in Orore. The main objective for these groups is to empower mothers by equipping them with skills in bead making, dressmaking and hairdressing. We have directly impacted dozens of women through our work.

3.6 Sober Man Africa

This is our group that solely deals with men.

The purpose for this group is to ensure that there is a balance. Judging by the recent statistics, men are in most cases for the vices in the society today.

Majority of the cases of abuse that are reported, they are perpetrated by men. This therefore means that we need to work with men more to ensure that there is respect for the other gender. Sober Man mentors young men to living responsible lives and to love and cherish their wives and children.

4. Sponsoring

All project-related donations are sent 100% to Kenya.

- 1) Sponsoring one pupil in Green Garden Academy @ 20 €/month
- 2) Sponsoring one pupil in Green Butterfly Academy @ 20 €/month
- 3) Sponsoring one pupil in the Soweto Slum Center Nairobi @ 20 €/month
- 4) Sponsoring one pupil in the SHS or secondary in Nairobi @ 25 €/month
- 5) Sponsoring one child in the family home @ 40 €/m
- 6) Neutral support for any of our projects are warmly welcome.

Thank you!
